Workshop on
“The Value of Library and
Information Services in Nursing
and Patient Care”

31 st January 2023

8.00am – 5.00pm

Venue

Conference Hall, JMCON

Welcome to JMCON

Health is a state of well-being that enables a person to lead a physically, psychologically, socially and economically productive life. Health is a right of all the people. Individuals, families and communities have responsibility towards maintaining their health.

Nursing contributes to the health service in a vital and significant way in the health care delivery system. It recognizes national health goals and is committed to participate in the implementation of National Health Policies and Programmes. It aims at identifying health needs of the people, planning and providing quality care in collaboration with other health professionals and community groups.

OBJECTIVES

- At the end of the workshop delegates will be able to
- Understand and adopt new library services for excellence in nursing education, Research and publishing
- Know about the use of digital resources to explore in nursing care and patient outcome
- Describe and practice utilization of cloud computing in nursing education and research.
- Be encouraged to use updated evidence based library resources and services for day to day nursing practices as primary nurse, educator, administrator and researcher
